DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 and 9-12 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The allowability resides in the overall structure of the device as recited in independent apparatus claim 1 and at least in part, because claim 1 recites: "wherein the grounding jack has a grounding conductor and no power supply terminal".

The aforementioned limitations in combination with all remaining limitations of claim 1 are believed to render said claim 1 and all claims currently dependent therefrom patentable over the art of record.

The closest reference to the present invention is believed to be Naghi et al (PN 5,547,399).

Naghi teaches wherein an AC/DC adapter has a power cable and a grounding cable branched off from said power cable that connects to a computer and docking station, but did not disclose "wherein the grounding jack has a grounding conductor and no power supply terminal".

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
